- **Compounding**
  Support for compound ingredients

- **Trusted**
  Built on Microsoft technology including .NET and SQL server

Maintaining multiple inventory systems can be difficult and time consuming. By leveraging SureCost's inventory and ordering solution paired with Optu's automation service, keeping your inventory in sync is a breeze. With SureCost and Optu, maintain system accuracy by monitoring and messaging Rx allocations, dispenses, calculations and returns. Optu's SureCost solution will keep your PMS dispense data up to date and in sync based on open batches and inventory dispenses.

SureCost Purchasing and Inventory Management solutions unify pharmacy purchasing and inventory, so you can optimize your buying decisions and discover money-saving opportunities using your entire vendor and wholesaler catalog. SureCost works with all major wholesalers and the vast majority of secondary providers, GPOs, and other pharmaceutical sources. Increase time and money savings and drive DSCSA compliance with SureCost. Visit www.SureCost.com to learn more.
